

SAFETY MISSION STATEMENT

PHILOSOPHY:

Cessco Fabrication and Engineering Limited is committed to providing a safe and healthy environment for its employees and to establishing and maintaining safe work practices through proper procedures, education and direction. Safety is everyone's responsibility. It rests with all levels of management and each employee.

ALL COMPANY EMPLOYEES:

It shall be the responsibility of every employee to observe and comply with the established Cessco policies and procedures, to work in a prudent and safe manner and to promptly report any real or potential safety or health hazard to their supervisor, with the understanding that working safely constitutes a condition of employment at Cessco.

SENIOR MANAGEMENT:

It shall be the responsibility of Senior Management to establish and maintain standards, policies, procedures, and work practices in compliance with current laws and standards, and to ensure that their Managers and Front Line Supervisors are instructed and trained in the foregoing. They shall dedicate their efforts to providing a safe and healthy working environment for all employees through active leadership and support of Health and Safety programs.

MANAGERS AND FRONT LINE SUPERVISORS:

It shall be the responsibility of Managers and Front Line Supervisors to ensure that employees are instructed and trained in safe work practices in order to secure compliance with Cessco policies and procedures. They shall conduct regular safety inspections, conduct regular staff safety meetings, lead accident investigations, and initiate any corrective action for any real or potential safety or health hazard.

HEALTH AND SAFETY CO-ORDINATOR:

It shall be the responsibility of the Health & Safety Co-ordinator to administer and evaluate the effectiveness of the Health and Safety Program, to monitor work site conditions, to provide or co-ordinate training and education of the workforce and to serve as a resource for health and safety related issues.

HEALTH AND SAFETY COMMITTEE MEMBERS:

It shall be the responsibility of the Committee Members to promote safe work practices and conditions to assist in creating a safe workplace by recommending actions which will improve the effectiveness of the Cessco Safety and Health Program.

Burke Oswald
President & General Manager
